

Hispanic Business Enterprise Program

The United States Hispanic Chamber of Commerce (USHCC) provides a national platform to America's Hispanic-owned businesses to increase contracting opportunities and connections to Fortune 1000 corporations along with the U.S. Federal Government.

Two-thirds of American jobs are created by small minority and women-owned businesses. Hispanic Business Enterprises (HBEs) are major economic contributors to the United States Gross Domestic Product (GDP). Latinos start new ventures at three times the national average, while Latina-owned businesses are launching new ventures five times faster than their non-minority counterparts.

The USHCC is the leading advocate for pro-business policies on behalf of 5 million HBEs and minority owned small businesses. Whether on Capitol Hill or across the country, the USHCC equips its members with technical assistance resources and the knowledge to grow their businesses by increasing contracting opportunities, expanding access to capital, and fostering valuable connections to a broad a national network of decisionmakers in the public and private sectors.
